Conceived as a feminist dungeon crawler, Black Room is a video game that features a majority female cast of video game sprites from the 1970s-current day and bring them together to form new narratives. In *Black Room*, you play as an insomniac on the verge of sleep, moving through shifting states of consciousness.

**5:30pm – 7 pm:** Workshop @ La Centrale

The purpose of this workshop is to help members of marginalized communities develop self-defense tools to improve their own safety and privacy on the web. This endeavour aims to reclaim agency over those spaces, lives, and communities both online and offline. **\*\*\*LIMITED SEATS AVAILABLE\*\*\***

**7pm – 10pm :** Vernissage @ articule  
 262, Fairmount St. W.  
[Facebook Event](#)

The exhibition Code : Body investigates how the body is monitored, bullied and constrained, forced to stay within the limits dictated by white patriarchy. From virtual reality to digital photography, each artist counteracts these codes in order to give agency to people who are ignored, yet whose bodies remain controlled.
