STUDIO

FEMINISMS + ART + TECHNOLOGY + SOCIETY

See you on Friday, March 15th, for [A Choir of Demands and Desires on Repeat](#), a one-night performance where an ad hoc choir remembers and repeats the demands of feminist movements. Doors open at 5:30 pm.

PROGRAMMING – INVISIBLE LABOUR

PERFORMANCE + DISCUSSION

A Choir of Demands and Desires on Repeat | Annie Wong & al.

- In collaboration with Rebecca Sweets and Suzanne Fernando
- With the participation of Ahreum Lee, Feliz Tupe, Laëtitia Techer, Nadia Hammouda, Rojin Shafiei and Soukayna
- Friday, March 15th, 2019
- Doors open at 5:30pm
- Performance at 6pm, followed by a discussion with the artists

@ [OBORO](#) (Media Lab, 2nd floor)

Initiated in Toronto in 2017, this project engages locals to participate in an ad hoc choir and to contribute to a 'speaking score' that is collectively read aloud. With the aim of creating an extensive and living record of demands by BIPOC women, nonbinary and/or 2-Spirited on a global scale, over a period of ten years, the artists invite locals to take part in this Montreal iteration, in the language they prefer, to expand the Choir's score.

WORKSHOPS

WORKSHOP | DIY Electronics

- Instructor: Nataliya Petkova
- Duration: 20 hours
- Dates : May 18,19, 25 and 26, 2019 / 1pm – 5 pm at Studio XX
June 1st, 2019 / 1pm – 5 pm at [Fab Lab du PEC](#) (Pie-IX metro - 1691 Boulevard Pie-IX)
- \$ 135 (taxes included, see [conditions](#))
- Workshop given in French by a bilingual teacher
- Number of participants: 8
- At Studio XX + Fab Lac du Pec

In a Do-It-Yourself environment, participants will discover the physical phenomena related to electricity, such as electromagnetism and electrochemistry. They will learn to use integrated circuits and how to connect motors, light and sensors. The workshop aims to provide access to the expertise and resources needed in order to undertake the design of circuits and to add mechanical components when creating tactile, sound or electro-mechanical art.

Using the sound synthesizer project (Atari Punk Console), participants will learn basic soldering techniques. The last day of the workshop will take place at Fab Lab du PEC (Montreal) where they will finalize their projects and meet a community of makers.
