

# Cyber Live

**Maid in Cyberspace - Encore !** The Studio XX 2nd annual international festival of web art by women gets hot and wired this week. Eleven artists from Canada, US, Australia, England, Scotland and Estonia are webbing-out at break-neck speed. While the work can be viewed at a comparable snail's pace from home, part of the live-action at Cybermaid headquarters includes the opening party's Hot Streaming Radio performance by <CCS>, an experimental aural collective streaming sounds from NYC and Banff to Montreal. For a complete program of events and work, visit the website <[www.studioxx.org/maid-encore/](http://www.studioxx.org/maid-encore/)> or wet your surf with a cocktail at the vernissage Friday Nov 6, 6-9 pm, 372 Ste-Catherine W, #410. Art on view at the XX site until Nov 28.
